Dear ladies and gentleman,

We represent BTC 24 Ltd, the operating company of bitcoin24.com.

As you can see the website and the service of bitcoin24.com are closed. We expect that this situation will be a temporary one. We are working hard on this case and we are trying to find a solution as fast as possible. The German and the Polish authorities and different leading banks act against Bitcoin24.com. Due to that fact it is not possible for BTC 24 Ltd. to use the money or the bitcoins. The money and the bitcoins are safe. The money remains still on the bank accounts, but BTC 24 Ltd. cannot use it right now. We are in contact with the authorities and we will take all legal remedies to change this situation. Right now we cannot say how long it takes to solve all problems, but we are working with highest attention on this case. We ask you for patience as we change this situation. We will give further information if it is possible and request that you refrain from enquiries in the meantime.
